Retail

**RP10 Aphelion**

- ▶ new ceramic platter with high precision tolerance hub assembly
- ▶ new RB2000 tone arm with tapered polished aluminum arm tube and zero-tolerance bearings
- ▶ skeletal polyolefin foam core plinth
- ▶ magnesium and phenolic braces
- ▶ new precision DSP controlled half-chassis outboard power supply
- ▶ 24v Ultra Quiet Motor w/ MU shield and spring loaded ball bearing suspension
- ▶ decoupled outer frame and dustcover
- ▶ Aphelion MC pre-installed, \$995 savings

\$9,495.00

**RP10 Apheta 2**

- ▶ RP10 w/ Apheta 2 MC cartridge pre-installed, \$695 savings

\$6,695.00

**RP10**

- ▶ RP10 w/o cartridge

\$5,495.00

**RP8 Apheta 2**

RP8 with frame

- ▶ gloss black
- ▶ RB808 tone arm
- ▶ skeletal polyolefin foam core plinth
- ▶ magnesium and phenolic braces
- ▶ super flywheel triple layer glass platter
- ▶ hand-tuned TT-PSU speed control
- ▶ 24v Ultra Quiet Motor
- ▶ decoupled outer frame and dustcover
- ▶ Apheta 2 MC pre-installed, \$695 savings

\$4,195.00

**RP8 Exact**

- ▶ RP8 with Exact 2 MM cartridge pre-installed
- ▶ \$100 savings when purchased together

\$3,490.00

**RP8**

- ▶ RP8 w/o cartridge

\$2,995.00

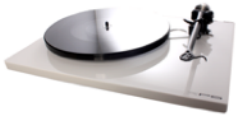

**Rega RP10**

A turntable which takes Rega's design philosophy further than ever before. Featuring an all new ceramic platter, radical plinth lightweight design, the new RB2000 tonearm with zero tolerance bearings and polished aluminum assembly, shielded 24v dual phase motor, a DSP power supply, and an all aluminum high tolerance hub bearing assembly. These are just some of the features of this amazing new turntable designed to extract more music from your vinyl than ever before.

## Turntables

## Retail

- RP6 Exact**
- ▶ gloss black, white, red, green
  - ▶ RB303 Tone Arm
  - ▶ double brace technology
  - ▶ double layer float glass platter for improved flywheel effect
  - ▶ includes TT-PSU speed control
  - ▶ 24v twin-phase motor
  - ▶ Exact 2 MM pre-installed, \$100 savings

**\$1,990.00**

- RP6**
- ▶ RP6 w/o cartridge

**\$1,495.00**

- Planar 3 Elys**
- ▶ gloss black or white
  - ▶ RB330 tone arm
  - ▶ double brace technology
  - ▶ 12mm Optiwhite float glass platter
  - ▶ 24v twin-phase motor w/ new PCB
  - ▶ upgradeable with TT-PSU
  - ▶ Elys 2 MM pre-installed, \$100 savings

**\$1,145.00**

- Planar 3**
- ▶ Planar 3 w/o cartridge

**\$945.00**

- Planar 2**
- ▶ gloss black or white
  - ▶ RB220 tone arm
  - ▶ 10mm Optiwhite float glass platter
  - ▶ easy setup with pre-mounted cartridge and auto-bias system
  - ▶ 24V twin-phase motor w/ new PCB
  - ▶ Carbon MM cartridge included
  - ▶ upgradeable with Performance Pack Kit

**\$675.00**

- Planar 1**
- ▶ gloss black or white
  - ▶ RB110 tone arm
  - ▶ high mass phenolic platter
  - ▶ easy setup with pre-mounted cartridge, quick counterweight and auto-bias system
  - ▶ 24V motor
  - ▶ Carbon MM cartridge included
  - ▶ upgradeable with Performance Pack Kit

**\$475.00**

- RP78**
- ▶ cool grey
  - ▶ specially design 78 RPM playback
  - ▶ RB202 tone arm
  - ▶ cartridge not included

**\$645.00**

## Return of the Planar!

Way back in 1975, Rega released its first Planar turntable. Its design was revolutionary, incorporating a lightweight, high strength philosophy that was counter to almost everything on the market. It was an over-night sensation that set Rega on the path its on today. Having won more awards than any other turntable manufacturer, the new Planar turntables reaffirm Rega's commitment to analog technology and high performance at a reasonable price.

The Planar 3 turntable is quite special. Every component has been revised to improve performance, build quality, reliability, ergonomics and aesthetic. It truly is the best value in turntables today!

## Phonostages

## Retail

### IOS Reference

- ▶ Reference Moving Coil Phono Stage
- ▶ four stage, all symmetrical pre-amplifier
- ▶ symmetrical discrete tracking power supply
- ▶ Zobel DC resistance correction network
- ▶ adjustable gain & load control
- ▶ ideal match for Aphelion and Apheta 2
- ▶ black anodized aluminum case
- ▶ 1 XLR line level balanced input
- ▶ 1 RCA line level single ended input
- ▶ 1 RCA line level output
- ▶ mute function

\$6,995.00

### Aria

- ▶ hand-built all analogue MC/MM phono stage
- ▶ adjustable loading & gain
- ▶ discrete inputs and circuits for MC and MM
- ▶ no digital circuitry
- ▶ toroidal transformer
- ▶ line level output

\$1,495.00

### Fono MM

- ▶ hand-built all analogue MC/MM phono stage
- ▶ adjustable loading
- ▶ discrete inputs for MC vs MM
- ▶ no digital circuitry
- ▶ toroidal transformer
- ▶ line level output

\$395.00

### Fono Mini A2D

- ▶ hand built micro MM phono stage
- ▶ ADC via USB 44.1 kHz input
- ▶ 47 Ohm in parallel with 100pF

\$175.00

## Tonearms

### RB2000

- ▶ polished cast one-piece arm tube design optimises mass distribution and rigidity, further reducing distortion
- ▶ zero-tolerance bearings
- ▶ unique tungsten counterweight
- ▶ all functional parts construction from metal
- ▶ optimised use of aluminium vs. stainless steel further reduces mass in critical areas

\$2,195.00

### RB808

- ▶ painted one-piece arm tube design optimises mass distribution and rigidity
- ▶ high grade, extremely low friction bearings
- ▶ aluminium 3-point mount

\$1,195.00

### RB330

- ▶ coated one-piece arm tube design optimises mass distribution and rigidity
- ▶ low friction bearing assemblies
- ▶ dynamic tracking force adjustment
- ▶ plastic 3-point mount

\$595.00

### RB202

- ▶ same arm tube as RB303
- ▶ static tracking force adjustment
- ▶ lower bearing grade than RB303

\$395.00

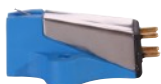

## Moving Magnet Cartridges

## Retail

- Exact 2**
- ▶ MM cartridge
  - ▶ 3 Point Mount
  - ▶ vital stylus, complex fine line micro-ground from a rectangular diamond billet
  - ▶ zero-tolerance channel balance
  - ▶ output: 6.8 - 7.2mV
  - ▶ weight: 1.75 grams

**\$595.00**

- Elys 2**
- ▶ MM Cartridge
  - ▶ 3 Point Mount
  - ▶ elliptical stylus
  - ▶ Output: 6.8 - 7.2mV
  - ▶ Weight: 1.75 grams

**\$295.00**

- Bias 2**
- ▶ MM Cartridge
  - ▶ 2 Point Mount
  - ▶ elliptical stylus
  - ▶ output: 6.8 - 7.2mV
  - ▶ weight: 1.5-2 grams

**\$165.00**

- Carbon**
- ▶ MM Cartridge
  - ▶ 2 Point Mount
  - ▶ user replaceable elliptical stylus
  - ▶ output: 2.5mV at 1kHz
  - ▶ weight: 2-3 grams

**\$65.00**

User Replaceable Stylus \$45

- RB78**
- ▶ special mono MM cartridge
  - ▶ 2 Point Mount
  - ▶ elliptical stylus designed for 78 RPM records
  - ▶ output: 6.8 - 7.2mV
  - ▶ weight: 1.75 grams

**\$165.00**

## Rega Cartridge, Handmade in the U.K. since 1987.

Few people know that Rega cartridges are 100% hand-built in their own factory. The designs emphasize Rega's philosophy of lightweight, rigid construction and precision assembly. Fitted to a Rega tonearm and turntable, they operate in perfect harmony both mechanically and electrically. When building your system, never settle for anything that compromises its performance.

Rega cartridges make the very best of your investment. Guaranteed.

## Moving Coil Cartridges

## Retail

### Aphelion

- ▶ reference MC cartridge
- ▶ boron cantilever
- ▶ inverted Vital-profile diamond stylus
- ▶ pivot pad suspension eliminates tie-wire
- ▶ micro iron cross, 50% smaller than Apheta 2
- ▶ high-spec .0018mm fine copper wire
- ▶ high power neodymium magnet
- ▶ zero tolerance CNC-machined black anodized aluminum body
- ▶ .35mV output
- ▶ channel balance: .10mV +/-
- ▶ channel separation: -29dB
- ▶ 100 ohm input load impedance
- ▶ 10 ohm output impedance
- ▶ save \$1000 when purchased with the RP10

**\$4,995.00**

### Apheta 2

- ▶ MC cartridge
- ▶ 3 Point Mount
- ▶ vital hyper-elliptical diamond stylus
- ▶ telescoping aluminum cantilever
- ▶ cantilever is located and secured using a polymer grommet in a 'floating cross', eliminating the infamous tie-wire suspension and banishing high frequency resonance commonly associated with MC designs
- ▶ output: .35mV
- ▶ weight: 1.75g
- ▶ save \$700 when purchased with the RP8 or RP10

**\$1,895.00**

## Cartridge Trade-In

## Retail

### Apheta 2

- ▶ Trade-in exchange (\$595 savings)

**\$1,395.00**

### Exact 2

- ▶ Trade-In exchange (\$100 savings)

**\$495.00**

### Elys 2

- ▶ Trade-In exchange (\$40 savings)

**\$255.00**

### Bias 2 and 78

- ▶ Trade-In exchange (\$20 savings)

**\$145.00**

### Carbon Stylus

- ▶ replacement RP1/Carbon MM stylus
- ▶ no exchange required

**\$45.00**

Exchange your old Rega cartridge for a new one at reduced price

## Turntable Upgrades & Add-Ons

## Retail

- TT PSU**
- ▶ vibration canceling power supply and speed control upgrade for Planar3/RP3/P3-24/P5
  - ▶ improves bass, pitch, timing and imaging

**\$395.00**

- Performance Pack Kit**
- ▶ upgrade package for Planar 1 & Planar 2
  - ▶ Bias 2 Cartridge
  - ▶ reference silicone drive belt
  - ▶ thicker black wool mat
  - ▶ improves clarity and coherence
  - ▶ \$59 savings

**\$195.00**

- 24v Motor Upgrade Kit**
- ▶ RP1/P1/P2/P3/P3-25
  - ▶ allows upgrade to TT-PSU
  - ▶ includes motor, PS1 and plastic housing
  - ▶ improves pitch and timing

**\$225.00**

- Reference Drive Belt**
- ▶ natural rubber, high tolerance reference grade drive belt for all Rega turntables
  - ▶ reduces wow-and-flutter

**\$59.00**

- Wall Shelf**
- ▶ turntable wall shelf for all Rega models
  - ▶ new brace design
  - ▶ reduces vibration and feedback

**\$225.00**

- Rigid Foot**
- ▶ upgrade feet for RP8 and RP10
  - ▶ solid machined aluminium
  - ▶ improves clarity and bass response

**\$80.00**

- Color Mat**
- ▶ Purple, Red, Blue and Yellow
  - ▶ increased thickness improves sound

**\$35.00**

- 3 Pt Adjustable Spacer**
- ▶ 2, 4, 6, or 8 mm adj. plastic spacer fits RB100/101/110/202/220/251/301/303/330
  - ▶ perfect for RP1, Planar 2, Planar 3
  - ▶ allows for VTA adjustment when using non-factory cartridges

**\$29.00**

- Stainless Steel Spacer**
- ▶ 2 mm spacer fits RB100/101/110/202/220/251/301/303/330/700/808/900/1000/2000
  - ▶ Perfect for RP6, RP8, RP10
  - ▶ allows for VTA adjustment when using non-factory cartridges

**\$39.00**

- 45 RPM Adaptor**
- ▶ adaptor for 45 RPM records
  - ▶ precision machined from a single block of aluminum, fits over spindle

**\$29.00**

- 2M TTPSU Cable**
- ▶ turntable to TTPSU DIN cable
  - ▶ extended length

**\$40.00**

## Amplifiers

## Retail

- Osiris**
- ▶ Reference Integrated Amplifier
  - ▶ passive preamplifier, high gain amplifier
  - ▶ high linearity and bandwidth common base voltage amplifier driver
  - ▶ regulated symmetrical tracking power supply with low noise voltage reference
  - ▶ twin low noise toroidal transformers
  - ▶ minimum 162 watts @ 8 ohms
  - ▶ 250 watts @ 4 ohms
  - ▶ 1 XLR line level balanced input
  - ▶ 3 RCA line level inputs
  - ▶ amplifier direct input
  - ▶ black anodized aluminum case
  - ▶ custom aluminum remote

**\$9,995.00**

- Elicit-R**
- ▶ full chassis integrated amplifier
  - ▶ FET discrete preamplifiers
  - ▶ class-A driver stage
  - ▶ stepped attenuator volume control
  - ▶ 105 watts @ 8 Ohms
  - ▶ 162 watts @ 4 ohms
  - ▶ stable to 4 Ohms
  - ▶ toroidal transformer
  - ▶ 6 line level inputs
  - ▶ 1 switchable dedicated MM phono input  
line level & record output
  - ▶ direct input (AV bypass)
  - ▶ full size Solaris remote

**\$2,995.00**

- Elex-R**
- ▶ full chassis integrated amplifier
  - ▶ 4 line level inputs
  - ▶ 1 MM phono input
  - ▶ line level & record output
  - ▶ upgraded volume control
  - ▶ 72 watts @ 8 ohms
  - ▶ 113 watts @ 4 ohms
  - ▶ stable to 4 Ohms
  - ▶ toroidal transformer
  - ▶ mini remote

**\$1,695.00**

- Brio 2017**
- ▶ half chassis integrated amplifier
  - ▶ individual high and low level power supplies
  - ▶ headphone output
  - ▶ 5 inputs (input 1 dedicated MM phono stage)
  - ▶ 50 watts @ 8 ohms
  - ▶ 72 watt @ 4 ohms
  - ▶ toroidal transformer

**\$995.00**

- Ear**
- ▶ hand built headphone amplifier
  - ▶ volume control
  - ▶ independent mute
  - ▶ sensitivity 90db
  - ▶ multiple connectivity options
  - ▶ maximum output level  
25Ohm load 775mW, 32W load 685mW  
50Ohm load 530mW, 100W load 320mW  
600Ohm load 60mW

**\$395.00**

## Digital Sources

## Retail

- Isis**
- ▶ Reference CD Player
  - ▶ black anodized aluminum case
  - ▶ 1 XLR line level balanced output
  - ▶ 1 RCA line level output
  - ▶ digital coax or optical output
  - ▶ two Burr Brown PCM1794 DAC's
  - ▶ 44.1/48 kHz USB Input
  - ▶ custom aluminum remote

**\$9,995.00**

- Isis Valve**
- ▶ Reference Valve CD Player
  - ▶ black anodized aluminum case
  - ▶ tube driving analog output stage
  - ▶ 1 XLR line level balanced output
  - ▶ 1 RCA line level output
  - ▶ Digital Coax or Optical output
  - ▶ Wolfson WM8741
  - ▶ 44.1/48 kHz USB Input

**\$10,995.00**

- Saturn-R**
- ▶ full chassis DAC & CD transport
  - ▶ four S/PDIF inputs (two coax, two optical)
  - ▶ one asynchronous 24/192 USB input
  - ▶ dual Wolfson WM8742 DACs
  - ▶ top loading CD transport
  - ▶ enhanced amplifier output circuit
  - ▶ enhanced digital section power supplies
  - ▶ full size Solaris remote control

**\$2,995.00**

- Apollo-R**
- ▶ half chassis CD Player
  - ▶ non-mechanized top loading CD door
  - ▶ Wolfson WM8742 DAC
  - ▶ circuit design derived from Isis Reference
  - ▶ digital and analog output
  - ▶ mini remote

**\$1,095.00**

- DAC-R**
- ▶ half chassis digital to analogue converter
  - ▶ 2 coax & 2 optical inputs, 24/192 capable
  - ▶ 1 asynchronous USB input, 24/192 capable
  - ▶ dual Wolfson WM8742's
  - ▶ 3 user selectable digital filters.
  - ▶ digital coax and optical out

**\$1,195.00**

## How Good Are The Isis and Osiris, Really?

“As I mentioned earlier, I approached this review with skepticism and doubt, I suppose because—down deep—I feared Rega might build merely “good” components for a market segment where sonic greatness is required. But now that I’ve lived with the Isis and Osiris for months and experienced their capabilities firsthand, I see them in a completely different light. Where once I wondered whether the Rega pieces could keep up with established, pedigreed leaders in their class, I now find myself asking whether competitors can in fact keep up with the Isis and Osiris. They really are that good.”

Chris Martins, The Absolute Sound

## 2014 TAS Editor's Choice Award

## What makes a Rega speaker special?

made in the UK - bespoke Rega drive units - hand wound inductors  
real wood veneers - room friendly placement - Rega musicality

## What's new with RX?

Seeking to fortify the sound without losing their innate 'specialness', Rega has made these improvements:

- thicker 18mm cabinets
- more powerful hand-doped DX125 mid-bass driver
- revised crossovers
- improved spiking without outriggers
